

# Dieu-Quan Ly — all 26 pay periods, as paid

One statement per pay date, 2026-01-09 through 2026-12-25, issued by 9134-5777 Québec Inc.. Each stub shows the amounts **actually withheld**. Pays #1–#15 were run on a basis that omitted two deductions and are marked rather than quietly corrected — a paystub records a payment that happened, and restating it with the right figures would misrepresent it. The shortfall is recovered across pays #16–#26, from 2026-08-07 onward.

| GROSS PER PAY         | NET • PAYS 1–15 | NET • PAYS 16–26 | UNDER-WITHHELD |

## Pays #1–#15 were under-withheld by \$3,413.25

Those 15 pays (2026-01-09 to 2026-07-24) were calculated with the CRA payroll calculator. It computes federal tax, QPP and EI — but **not Québec income tax and not QPIP**, so neither was deducted. \$1,972.26 was paid each time instead of \$1,744.71, a difference of \$227.55 per pay.

- Québec income tax not withheld: **\$3,264.30**
- QPIP not withheld: **\$148.95**
- Net overpaid to the employee, and owed back: **\$3,413.25**
- **The employer's remittance liability is unchanged.** What should have been withheld is owed to Revenu Québec whether or not it actually was — \$650.70 per pay, \$16,918.20 for the year. If the remittances were also made on the short basis, they are in arrears by the same amount and interest may apply.
- **The recovery is applied from 2026-08-07.** An extra \$310.30 is withheld on pays #16–#25 and \$310.25 on pay #26, taking net pay from \$1,744.71 down to \$1,434.41, then \$1,434.46 on the last. The instalments sum to \$3,413.25 exactly and the year closes on the correct annual net of \$45,362.46.
